You have probably noticed that our newsletter is fewer pages this month. The Community Action Agency prints our newsletter as well as those of several other neighborhood watch associations in our area. Like most agencies, businesses and households at this time, they needed to cut back a little and tighten their belt. Instead of dropping us, they will continue to print our newsletter but asked us to shorten it. We want to thank the Community Action Agency for their continued support of neighborhood watch associations. We couldn't afford to do a newsletter without you.

We had been putting ads in the newsletter for businesses who were helping us with the distribution. With the shortened newsletter, we can no longer do that, but we still ask you to support those businesses who support us.

The purpose of the newsletter is so you will be informed of what is going on in our neighborhood. Don't forget we also post announcements and information on our website [www.otnwa.net](http://www.otnwa.net).

**Olde Towne Neighborhood Watch News**

At our May meeting, it was reported that our free trash dump had been a success. The next trash dump for our neighborhood watch area is tentatively scheduled for September 24, 25, & 26. We will post the hours later after we coordinate our volunteers' schedules.

Also at our meeting, it was decided to suspend our monthly meetings through the summer due to vacations, etc. Unless urgent business comes up, our next regular meeting is scheduled for September 30.

Don't forget we will email any announcements, reminders and even our newsletter to any members who want to be in our database of email addresses. These email addresses will not be sold or given out to anyone else. This database is only so we can get the information to you better.

Also don't forget our dues are \$12 a year and help support our patrolling, our website, Del City's Night Out at Eagle Lake as well as other needs that may come up. We also need volunteers.

**The schools are out for the summer, but the paper recycling bins are still open. This is an easy, no-cost way to support our schools. Plus it's less stuff in the landfill. When you think green, think of those green recycling bins. Our schools will thank you.**
